

ROBERT MUTSAERS

Green Power

2007 Global Fellow

BIG BOLD IDEA

Realize sustainable, decentralized micro-hydro energy and distribution systems to provide electricity to rural Kenya.

PERSONAL BIO

Robert Mutsaers, a designer and construction supervisor from Holland, moved to Kenya in 2002 to renovate a lodge on Mount Kenya. He attributes a meeting with local farmers for sparking his interest in creating Green Power in order to develop a new solution for rural electrification.

Organization/Fellow Location

Nairobi, Kenya

Impact Location

Africa

Kenya

Organization Structure

Nonprofit
