BIG BOLD IDEA

Reduce the juvenile recidivism rate in Cook County among minority boys by providing transitional employment and individual support.

ORGANIZATION OVERVIEW

Chasing23 launched in 2016 as a vehicle for mentoring and empowering young men of color on the South Side of Chicago. As of 2019, Chasing23 has served 35 youth, in cohorts of 10 to 15 students in each school, with limited personal, academic, and professional support resources. By providing these youth with a comprehensive blend of mentoring, tutoring, and workforce development programming, Chasing23 has been able to support young men of color in developing personal and professional skills, building pride and confidence, and developing goals for long-term success.
