BIG BOLD IDEA

Close the funding and gender gap for small and medium enterprises by developing innovative impact advisory and asset management services that prioritize gender lens investing and directing resources to those overlooked by traditional finance.

ORGANIZATION OVERVIEW

Tshiamo Impact Partners (Tshiamo Impact) is closing the funding and gender gap for small and medium enterprises by developing innovative impact advisory and boutique asset management services that prioritize gender lens investing and direct resources to those overlooked by traditional finance. Tshiamo Impact is Black women-owned and currently manages allocations from two angel investment groups of 50 African women who invest with a gender lens. These funds have achieved attractive, above-average financial returns and created clear social value. Additionally, Tshiamo Impact's corporate foundation seeks to actively enhance social entrepreneurship and address gender inequality.
